

Don't Let Your Friends Die Drug Use Can Cause Death

- Mixing various drugs whether alcohol, illegal drugs, or prescription drugs - can be a deadly combination.
- Often you don't know exactly what you are taking as these drugs are often contaminated.
- You may know this.

You may not believe it could happen to you... You may be concerned about someone else.

Bottom line: if you see someone collapsing from alcohol or other drug useCall 911. Don't think they will sleep it off.

They may not wake up again

Be a Good Samaritan!
