Vote No on 4!

This November, with Question 4 on the ballot voters in Massachusetts will be asked whether to legalize recreational marijuana. We believe that the answer is "no."

MOAR is a part of the Safe and Healthy Massachusetts
The campaign is a growing coalition of families, workers, businesses, health care and community leaders, prevention - treatment - recovery advocates, educators, and first responders who are opposing the legalization of the commercial marijuana industry in Massachusetts. We believe that before any substance is legalized we must examine the facts. In the case of Question 4, we believe that the facts are very clear.

Community Preservation Act

At MOAR we recognize the importance of affordable housing to recovering individuals in our state. Sixteen Massachusetts towns and cities will have the Community Preservation Act on the ballot this November. These include Boston, Pittsfield, Holyoke, Amesbury, Danvers, Norwood, and Watertown. The law would put in place a 1% increase in property taxes with exemptions for low income homeowners and seniors. This money will be matched by state funds that have already been paid and directed towards community preservation projects and affordable housing. Vote yes for the CPA in your community!

MOAR Teams Up With Cambridge Health Alliance for Addiction and Recovery Forum

Cambridge Health Alliance (CHA) and MOAR organized a free forum around education and awareness on addiction, recovery and access to services at Tuft's University. Speakers including Middlesex County DA Marian Ryan and John Rosenthal, Co-founder of Gloucester's Police Assisted Addiction and Recovery Initiative. The event attracted a wide range of participants including patients, providers, local organizations, and those in recovery with workshops on topics such as recovery messaging, medication assisted treatment, and maintaining recovery. MOAR thanks the Cambridge Health Alliance, Tuft's University, and all the participants for a great, educational day!

Supplemental Budget Restores Substance Abuse Trust Fund!

On September 29th, the legislature passed Governor Baker's supplemental budget including $4 million to fully restore funding to the Substance Abuse Trust Fund. This funding secures not only MOAR's continued operation but also many other important addiction services in our state. Thank you to all of our supporters and policymakers that helped advocate for this crucial funding.
